### **NHTSA fines Takata \$70M for faulty air bags**

(Al Jazeera) U.S. auto safety regulators on Tuesday fined Japan's Takata Corp. \$70 million for concealing evidence for years that its air bags are prone to explode with grisly consequences — a defect linked to eight deaths and more than 100 injuries worldwide. Under an agreement with the government, Takata will phase out the manufacturing of air bag inflators that use ammonium nitrate, the propellant blamed for the explosions. It also agreed to a schedule over the next two years for replacing many of the devices already in use. And unless it can prove they are safe, Takata may have to recall all its inflators, even those not yet implicated in the case. The company admitted that it knew for years that the inflators were defective and failed to report the issue for recall to the National Highway Traffic Safety Administration (NHTSA). "Delay, misdirection and refusal to acknowledge the truth allowed a serious problem to become a massive crisis," Transportation Secretary Anthony Foxx said. In a statement, Takata CEO Shigehisa Takada said the company regrets the circumstances that led to the NHTSA agreement and will work to develop a new generation of inflators. He said the settlement will "enable us to focus on rebuilding the trust of automakers, regulators and the driving public." Under the five-year pact, NHTSA ruled that Takata must immediately pay \$70 million in cash. However, regulators could increase the penalty to a record \$200 million if the company fails to abide by the terms. The biggest fine ever handed out by NHTSA is the \$105 million levied against Fiat Chrysler earlier this year for failing to report safety problems and follow through on 23 recalls. Takata's air bag inflators can rupture and hurl shrapnel at drivers and passengers in a crash. So far, about 23.4 million driver's-side and passenger-side inflators have been recalled on 19.2 million U.S. vehicles sold by 12 automakers. NHTSA Administrator Mark Rosekind said Takata's misconduct dates to at least 2009, when it failed to tell the agency about the problem. Automakers are required to notify NHTSA of defects within five days of discovering them. Regulators said Takata also provided them with "selective, incomplete or inaccurate data" for years.

### **Russian-built cargo plane crashes in South Sudan, killing 17**

(CNN) A Russian-built Antonov-12 transport plane crashed Wednesday shortly after takeoff from the airport in Juba, South Sudan, a South Sudanese presidential spokesman told CNN. The cargo plane was carrying 19 people, 17 of whom died in the crash, Ateny Wek Ateny, press secretary in the South Sudan president's office, told CNN. The survivors were a crew member and a child whose age is not known, Ateny said. Those on board included 15 South Sudanese passengers and four Russian crew members. The cause of the crash might have been engine failure, Ateny said, although he cautioned this had not been confirmed. He said a witness saw one engine fail before the plane crashed. The Antonov crashed less than 100 yards from the White Nile at 9 a.m. local time (1 a.m. ET) Wednesday, the spokesman said. A photo published by one local news organization showed the charred wreckage of a plane in the reeds near the riverbank. The plane was bound for the northern South Sudanese town of Paloich, in an area of oil fields. South Sudan is the world's newest country, having gained independence from Sudan in 2011. This is the second Russian plane to crash in the last four days. On Saturday, a Russian passenger plane went down in Egypt's Sinai desert, killing 224 people aboard. The cause of that crash has not been established.

# **SITUATION SUMMARY**

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

## **Weather of Concern**

- A Freeze Warning is in effect through 0800 hours today for portions of Mendocino, Trinity, and Humboldt Counties.
- A Freeze Warning is in effect through 0900 hours today for portions of Siskiyou County.

## **Active Weather Warnings, Watches and Advisories by County:**

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

#### **Eureka Weather:**

Cool and dry weather conditions will prevail through mid-week as a cold upper trough over the great basin slowly moves away to the east.

#### **Medford Weather:**

With clearing across the region combining with low level moisture from the rain over the past several days' fog is forming in the valleys across most of the region. This should clear out by late morning with mostly clear skies but cool temperatures with the cool air mass over the region. Models have trended farther south and a bit wetter with the next cold front moving in overnight into Thursday morning as a short wave cycles down the backside of the upper ridge offshore. This front dissipates in the afternoon as the upper ridge nudges back over the area. By Friday morning offshore flow spreads across the east side with about 5 degrees warming on Friday.

#### **Reno Weather:**

Cool conditions will continue the next few days with one more chance for light showers on Thursday as a fast moving system shifts through the region. Drier weather along with a gradual warming trend is forecast for the weekend. Another cold winter storm system is possible early next week with an increase in winds and chances for rain and snow.

#### **San Francisco Weather:**

Dry weather conditions will continue through the week with some of the coolest overnight temperatures of the season. Temperatures warm slightly late in the week back to near seasonal averages. The next pacific weather system may bring precipitation and cooler temperatures back to the region late in the weekend into early next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

A slight chance of morning showers can be expected in the northern Sierra this morning with breezy north winds and fair skies elsewhere today. A slight chance of showers exists in the northern Shasta Mountains Thursday and mostly cloudy conditions elsewhere. Fair conditions with near normal temperatures can be expected Friday and Saturday with precipitation likely over Northern California early next week with cooler temperatures.

#### **Hanford Weather:**

A few showers and possibly isolated thunderstorms over the mountains today as a low pressure system continues to exit the region. Clearing skies and a slight warming trend for the remainder of the week as weak high pressure begins to invade.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Mostly clear skies and a warming trend is expected through Saturday as weak offshore flow develops across the area. On Sunday and Monday a cooling trend will develop as onshore flow returns. Areas north of point conception may get a grazing shot of showers on Monday.

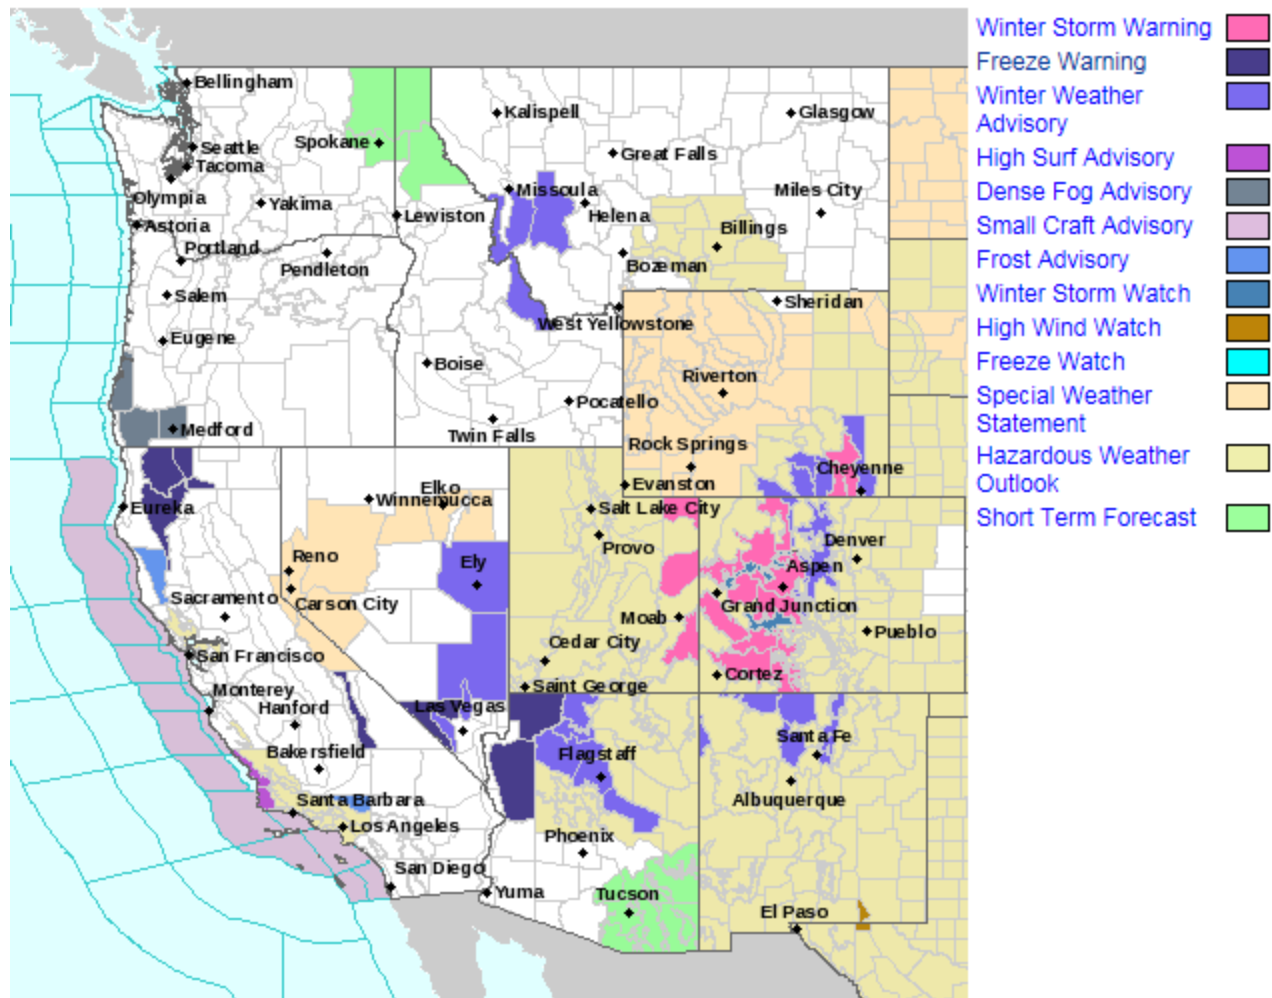

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Cool and partly cloudy weather is expected today with lingering showers. It will become fair...dry and warmer Thursday into Saturday under high pressure aloft and weak offshore flow. Cooler weather and more coastal clouds will arrive next week as a trough of low pressure moves into California.

#### **Southeast California Weather:**

A strong pacific low pressure system will bring much cooler temperatures today. It will also bring a chance of showers to the lower elevations today and tonight mainly east of the lower Colorado River valley with better chances over the higher terrain. Dry and warmer conditions are expected Friday through Monday followed by cooling on Tuesday.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

### **Local Emergency Proclamations:**

**A total of 62 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:**

- 28 Counties: Butte, Colusa, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
